

# MYSORE LEGISLATIVE ASSEMBLY

FOURTEENTH DAY.

Wednesday, 19th November 1958.

The House met in the Assembly Hall, Vidhana Soudha, Bangalore, at One of the Clock

MR. SPEAKER (SRI S. R. KANTHI, B.A., LL.B.) in the Chair.

## QUESTIONS AND ANSWERS.

MR. SPEAKER.—Before we start with the business of the day I would like to announce to the House that the new rules have come into effect from yesterday. So I would draw the attention of the Members to sub-rule (2) of rule 41 which is as follows:—

“If any question placed on the list of questions for oral answer on any day is not called for answer within the time available for answering questions on that day the answers shall be included in the printed proceedings of the Assembly of that day.”

Today there are 36 questions and if any questions remain without being taken up by the House, naturally they will be entered as unstarred questions. This fact I wanted to bring to the notice of the members. In view of this fact the time has to be divided between 36 questions which may mean a minute and a half for each. Members will have to remember that the old procedure cannot be allowed from today. According to the new procedure they will have to be as brief as possible in putting supplementaries.

### Inclusion of Bennetore Project in the Second Five-Year Plan.

Q.—2623. SRI V. KUMAR NAIK (Shorapur).—

Will the Government be pleased to state:—

(a) whether the Bennetore Project in Gulbarga District has been included in the Second Five-Year Plan;

(b) the estimated costs thereof;

(c) the extent of land expected to be irrigated under the above project;

(d) whether they are aware of the fact that the people of some taluks in Gulbarga District have made a representation requesting them to execute the above project immediately?

(e) the reasons for not yet taking up the above project?

A.—SRI H. M. CHANNABASAPPA (Minister for Public Works and Electricity).—

(a) No.

(b) Rs. 138 lakhs.

(c) 20,000 acres.

(d) Yes.

(e) The project has not been included in the Second Five-Year Plan.

MR. SPEAKER.—This question has already been answered. So you can put one or two supplementaries.

SRI V. KUMAR NAIK.—May I know the reasons for not including it in the Second Five-Year Plan?

\*SRI H. M. CHANNABASAPPA.—The reasons are that it is not remunerative, the return is only 9 per cent and that important villages like Mahagaon village will be submerged and that the submersion is disproportionate to the area that comes under irrigation. These are some of the important reasons for not including it in the Second Five-Year Plan as disclosed from the records.

\* Asterisk indicates that the remarks or speeches have not been revised by the member concerned.

**Sri V. KUMAR NAIK**—When was the estimate prepared?

**Sri H. M. CHANNABASAPPA**—The estimate was prepared on 21st September 1949.

**Sri V. KUMAR NAIK**—What will be the return if betterment levy and water rate are fixed?

**Sri H. M. CHANNABASAPPA**—If betterment levy and water rate are fixed under the Act that we have just now passed, probably the return may go high.

**Sri K. PUTTASWAMY**—May I bring to the notice of the Chair rule 36 (n) and request to be informed whether this question can be allowed to be answered in view of the fact that it has already been answered?

**Mr. SPEAKER**—I have brought that to the notice of the member. This question is a little bit different from that one. That is why I am allowing such supplementaries as were not put at that time.

**Sri V. KUMAR NAIK**—May I know the site of the project?

**Sri H. M. CHANNABASAPPA**—The site of the project is just below Mahagaon village.

**Sri V. KUMAR NAIK**—Cannot another site be chosen?

**Sri H. M. CHANNABASAPPA**—It is not possible. Investigations have been made and they disclose that above Gurwadi village no site is possible because the space is very little and below Gurwadi and Mahagaon village the river takes a very circuitous course and passes through ghatta. By means of a channel it will have to be taken through several miles without any irrigable area and therefore it is unremunerative and therefore a site had to be selected between Mahagaon village and Bennur. Three sites have been investigated: (1) near Mahagaon (2) near Siradan and (3) near Matki. Near Siradan the site was examined and found to be unsuitable and at Matki the site is not suitable because it will submerge Hannabad and Gulbarga road and therefore of all the three sites that have been investigated, the one below Mahagaon village is considered to be most suited and the best.
